EDUCATION

Karpagam College of Engineering

2025 – 2029

B.Tech Information Technology | CGPA: 8.45/10

Merit Scholarship: 100% Tuition Fee Waiver + 25% Hostel Fee Waiver

TECHNICAL SKILLS

Programming: Python, Java, C++, C, JavaScript, TypeScript, SQL

Web Development: HTML5, CSS3, Bootstrap, React.js, Next.js, Node.js, FastAPI

Databases & Data: MySQL, MongoDB, PostgreSQL, Pandas, Data Science, Power BI

Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Graph Algorithms, Database Design, Relational Databases, Problem Solving

AI & Security: Artificial Intelligence, RAG, Prompt Engineering, Cybersecurity

Development & DevOps: Git, GitHub, npm, Linux, Docker, AWS, VS Code

Design & UI: Figma, Canva, Graphic Design, UI/UX Design

Systems & Hardware: Embedded Systems, Arduino, Internet of Things (IoT)

PROFESSIONAL EXPERIENCE

Thiranex

May 2026 – Jun 2026

Full Stack Developer (Internship)

- Developed and deployed full-stack web applications, implementing frontend interfaces, RESTful APIs, database integration, user authentication, and CRUD operations.

Notepad++

Jun 2026 – Present

Open Source Contributor

[GitHub](#) | [PR History](#)

- Submitted 3 pull requests to the Tamil localization file `tamil.xml`, with 1 contribution reviewed and accepted upstream into the official Notepad++ project (PR #18161).
- Updated ~280 Tamil UI strings in the accepted contribution (+857/−169 lines), covering translation, terminology, spelling, and XML consistency across multiple localization/dialog modules.

Infosys Springboard

Oct 2026 – Dec 2026

Python Developer (Internship)

Incoming

- Selected for Infosys Springboard Internship 7.0 under the Python Technology Stack, a project-based, industry-oriented program.

REPRESENTATIVE EXPERIENCE

Unstop

Aug 2026 – Present

Campus Champion

- Represent Unstop on campus, promoting hackathons, competitions, and internships through student outreach and engagement.

Internshala

Aug 2026 – Present

Student Partner

- Represent Internshala on campus, sharing internship and career opportunities through student outreach and networking.

PROJECTS

Personal Developer Portfolio | HTML5, CSS3, JavaScript, SEO, JSON-LD

[GitHub](#) | [Live](#)

- Built and deployed a personal developer platform on a custom domain, integrating projects, experience, achievements, coding profiles, and professional identity.
- Configured custom email, domain, and workspace infrastructure alongside search-engine verification, analytics, canonical metadata, Open Graph, sitemap, robots directives, and `llms.txt`.
- Implemented structured data and AI/search discoverability using JSON-LD and metadata optimization to improve how the platform is indexed and represented across search and AI systems.

Intelligent Traffic Flow Predictor & Route Optimizer | JavaScript, Leaflet.js, Chart.js, OSRM, OpenStreetMap

[GitHub](#) | [Live](#)

- Built a weighted graph-based routing system using Dijkstra and A* with a Haversine heuristic and custom binary heap for efficient pathfinding.
- Implemented dynamic incident reporting, edge-weight penalties, and adaptive rerouting with map-based congestion visualization.
- Added 24-hour traffic forecasting and performance benchmarking to analyze routing and congestion behavior.

LiFi Communication System | Arduino UNO, C++

[GitHub](#) | [Live](#)

- Built an optical wireless communication prototype using LED modulation and LDR-based reception for digital data transmission.
- Implemented binary encoding/decoding with an 8-bit serial pipeline, configurable bit timing, LDR sampling, and serial-monitor data reconstruction.

ACHIEVEMENTS

Competitive Programming | codolio.com/profile/gssriram

- 2,150+ Problems Solved · 100+ Contests · 200+ Active Coding Days · 200+ Day Current Streak
- LeetCode 1,850 · CodeChef 3★ (1,627) · CodeChef DSA 4★ (1,938) · Codeforces Pupil (1,222) · Code360 Specialist (1,778) · AtCoder (123)
- KCE Codolio Rankings: #1 Codeforces Rating · #3 LeetCode Rating · #5 C Score · #6 Total Questions · GFG Rank #12

Coding Competition

- Google – The Big Code 2026: Cleared the qualifier round, ranked in the Top 15,000 nationally, and advanced to Round 1.

Hackathons

- HAC'KP 2026 – Kerala Police Cyberdome Hackathon: Shortlisted for the in-person pitching round at Google Bengaluru; presented ACPIA, an Agentic AI investigation-support platform for analyzing, correlating, and extracting insights from digital evidence.
- Smart India Hackathon (SIH) 2026: Cleared college-level screening and selection for official SIH participation.
- VIGYAN '26 Project Expo: Selected through college project screening to showcase a technical project at the 2026 Freshers' Inauguration.
